CONSTRUCTION - Hull: GPR colour white; deck and superstructure: GRP- sandwich construction 25mm with polyvinyl cellular plastics as core material for strength and insulation, colour ivory white

Hull taken back to gelcoat and epoxy treated with International Gelshield in 2015.

General

Hallberg Rassy 29, 1986, number 312 (of 571) with quarter berth

This delightful little cruiser is presented in first class order inside and out. The Hallberg Rassy 29 has genuine offshore cruising capabilities and this example is lovingly cared for and extensively equipped and must be seen to appreciate fully.

When approaching this yacht you first notice her lovely lines rising to the bow. A bow platform has been added aiding boarding when moored "bows to" and anchoring. The slab reefing mainsail and hanked-on jib are among the extensive sail wardrobe that ensure a good sailing performance and this combined with a relatively heavy displacement mean this Hallberg Rassy 29 has serious offshore cruising potential.

Below decks Hallberg Rassy's attention to detail, quality joinery and fabrics are immediately apparent and this yacht has a cosy ambience with a serious sea-going feel to her.

Forward is a double cabin with stowage and aft of this a heads compartment. The main saloon has two straight settees making good sea berths and a quarter berth is accessible to starboard aft of the nav area that has a lift out chart table. The secure and practical galley is opposite to port.

There are clever design ideas incorporated in this yacht to ensure maximum use of space and combined with quality construction and the meticulous maintenance of the current owner, this yacht is well worth considering as a live-board with bluewater performance.

She has a very good paperwork trail with proof of VAT payment

Accommodation and Domestic
